Synopsis: Extraction: The Raft of the Medusa is a meditation on humanity's massive redesign of the planet and a dystopic pamphlet on the anthropocene. Extraction: The Raft of the Medusa portrays a brief moment of euphoria as the drifting occupants on the raft, hoping and praying to be rescued, appear to glimpse a possibility of salvation. We can almost hear the hoarse cries through which they attempt to draw attention to their desperate plight, mustering a final ounce of strength before the void. This is their last chance of survival. Extraction: The Raft of the Medusa refers to the colonial paradigm, worldview, and technologies that mark out regions of high biodiversity in order to reduce life to its conversion into a resource through capitalism, with an enormous environmental and social impact. It is an allegory for states of emergency in environmental policy, climate and migration, with an ethical-political purpose.
